Results Based Facilitation Aug 22 2021 Results Based Facilitation (RBF) offers a solution that people can apply in their daily work. RBF has proven time and again to produce conversations and meetings that prompt direct action. There is no magic to getting unstuck from meeting paralysis - except the practical magic of applying learnable skills to move people off Square One and into the arena of action to achieve results. Thanks to the experimentation, application, and discipline of the many RBF thought and practice partners, RBF: Book Two - Advanced Skills can help you in three ways to hold more productive meetings. There has rarely in my work life been a course or workshop that has impacted my day-to-day work as much as the RBF Training. There is something very powerful and transformative about attending a training with the people you work with and then having the organization embrace it. - Participant, 2013 RBF Workshop. First, RBF is a specific, hands-on method that enables people both to understand what they need to do and why they need to do it, and to practice on a daily basis the skills for getting different and better results in their meetings and conversations. For example, most books on leadership exhort people to be better listeners; rarely, however, do you see leaders and managers who actually practice listening well. There is thus a gap between exhortation and realization. Foundation Skills goes beyond exhortation to provide the specific preparation steps, practice steps, and relapse strategies to achieve better listening. Second, RBF is designed to empower people to get concrete, actionable results anywhere, any time. The method is useful in one-on-one conversations, small groups, and large groups whether you are a meeting participant, meeting convener, or meeting facilitator. Third, RBF is an open architecture that complements and strengthens any other method a leader, manager, consultant, facilitator, or supervisor already uses. It specifically helps people map what they already know and do, empowering them to use what they know and do better - for better results more consistently and more frequently. The 2nd Edition has been updated and reformatted for improved reading.

Advanced Play Therapy Sep 22 2021 Current play therapy resources offer details on how to conduct play therapy, but are limited in addressing the challenges that develop when therapists conduct play therapy with real-life clients. Using the Child-Centered Play Therapy Approach, Ray has written the first book to address these complex play therapy subjects. Topics covered include: integrating field knowledge of play, development, and theory into the advanced play therapist's knowledge base; working with difficult situations, such as limit-setting, aggression, and parents; addressing modern work concerns like measuring progress, data accountability, and treatment planning; differentiating play therapy practice in school and community settings; and addressing complicated skills, such as theme work, group play therapy, and supervision. Ray also includes her Child Centered Play Therapy Treatment Manual, an invaluable tool for any play therapist accountable for evidence-based practice. This manual can also be found on the accompanying CD, along with treatment plan, session summary, and progress-tracking worksheets.
