*The Night of the Lights* May 28 2022 The Webster's dictionary defines "mind" as "the part of a person that thinks, reasons, feels, understand, and remembers." The beautiful thing about children is that their minds are open to so many possibilities. They naturally problem solve, and discover solutions where adults often get stuck. This is the principle behind the series Little Mind Books. We explore problems and find creative solutions. Our goal is to inspire children to explore for themselves, not only in seeing themselves in the characters, but to feel like they are part of the adventures. In the Night of the Lights we join Sam on an adventure with Grandma "Gigi" to discover what the lights are in her garden. What Sam discovers is better than magic, it is real. Sam learns a lesson in problem solving, and also learns the importance of respecting the natural habitat of earth's creatures. Join us with your children in discovering this real magic, it may spark adventure in your own backyard!

**Bright Lights, Prairie Dust** May 16 2021 Karen Grassle, the beloved actress who played Ma on *Little House on the Prairie*, grew up at the edge of the Pacific Ocean in a family where love was plentiful but alcohol wreaked havoc. In this candid memoir, Grassle reveals her journey to succeed as an actress even as she struggles to overcome depression, combat her own dependence on alcohol, and find true love. With humor and hard-won wisdom, Grassle takes readers on an inspiring journey through the political turmoil on '60s campuses, on to studies with some of the most celebrated artists at the famed London Academy of Music and Dramatic Arts, and ultimately behind the curtains of Broadway stages and storied Hollywood sets. In these pages, readers meet actors and directors who have captivated us on screen and stage as they fall in love, betray and befriend, and don costumes only to reveal themselves. We know Karen Grassle best as the proud prairie woman Caroline Ingalls, with her quiet strength and devotion to family, but this memoir introduces readers to the complex, funny, rebellious, and soulful woman who, in addition to being the force behind those many strong women she played, fought passionately—as a writer, producer, and activist—on behalf of equal rights for women. Raw, emotional, and tender, *Bright Lights* celebrates and honors womanhood, in all its complexity.

**Light: A Very Short Introduction** Jan 24 2022 Light enables us to see the world around us. Our sense of sight provides us with direct information about space and time, the physical arrangement of the world, and how it changes. This almost universal shared sensation of vision has led to a fascination with the nature and properties of light across the ages. But the light we see is just a small part of the whole spectrum of electromagnetic radiation, ranging from radio waves to gamma rays. In this *Very Short Introduction* Ian Walmsley discusses early attempts to explain light, and the development of apparently opposing particulate and wave theories by scientists such as Isaac Newton and Christiaan Huygens. He shows how light was recognized as an electromagnetic wave in the 19th century, and the development of the quantum mechanics view of wave-particle duality in the 20th century. He also describes the many applications of light, domestic and scientific, such as microwaves, DVDs, and lasers. We now use the whole range of electromagnetic radiation to peer both into the human body and deep into space. Turning to the future of optics, Walmsley concludes by looking at some of the most exciting new developments using quantum light sources in communications and computing. ABOUT THE SERIES: The *Very Short Introductions* series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

**Holding Back The Tears** Nov 29 2019 This is true story about real people is set in Edinburgh City and Dundee, where a petite Scottish Lassie called Rosie Gilmour, mother to Finlay Sinclair, receives news of the death of her son - who tragically has taken his own life by hanging. Rosie pretends her son is still alive by talking to him, for that takes away the unbearable pain of her loss. But once she begins to face up to the fact that Finlay is not coming back, her conversations become more of a challenge than she can handle. When memories of her past are triggered by everyday life events, they take her mind back and forth in time - back to her own childhood days in 1960, when she flirted with the fairground boys, and to the day she gave birth to Finlay - "ME LADDIE". Rosie's Scottish accent becomes more apparent whenever her emotions are heightened and she begins to recite poetry. She goes on to reveal doubts about her own self-worth and how she re-unites her role as mother - a role she had denied herself for seven years prior to Finlay's death. Rosie learns how to forgive herself and how to accept her loss with using practical coping strategies that sometimes but not always work for her. Many voices of different natures and walks of life appear in Rosie's, story with each one offering a part of their own belief to try and console her in her misery - except that she turns her back on any advice or support offered. Rosie is convinced that she can cope with her loss on her own and "needs no help from anyone, thank you" - until a sweet, gentle, soft-spoken voice begins to travel with her throughout her ordeal, leaving her no other choice but to listen. Eventually moving to the countryside in Angus, Rosie finds the isolation gives her life a new meaning offering her the opportunity to re-value her beliefs about her own self values and decides the time has come to give her son a memorial service and invite a chosen few dance companions whom she met on a regular basis in Edinburgh to honour this day. Rosie begins to accept she will never be the same person she once had been and shall never be again, believing now her journey through grief taught her many lessons making her a stronger and better person than she imagined she could ever be.

**Short Histories of Light** Apr 14 2021 Shiver. Swift whip of wind. / Fangs of the low front / stinging fierce as forest fires. / Frost thickening the stoop. In his debut collection, Short Histories of Light, Aidan Chafe recounts his Catholic upbringing in a household dealing with the common but too often taboo subject of mental illness. In unflinching fashion, Chafe reveals the unintended disasters that follow those who struggle with depression and the frustration of loved ones left to pick up the pieces. Other sections of the book shine a light on the wounds inflicted by systems of patriarchy, particularly organized religion, and the caustic nature of humanity. Imagery and metaphor illuminate Chafe's writing in a range of poetic forms, both modern and traditional. A boy stares helplessly through the walls of the family home, watches "filaments in glass skulls buzzing." A father's birthmark is described as a "scarlet letter." Grandma is portrayed as a "forgotten girl on a Ferris wheel of feelings." Vivid and haunting, at once tender and terse, Short Histories of Light captures what it feels like to be a short circuit in a world of darkness.

**Light** Aug 31 2022 That an unknown manuscript by C. S. Lewis should suddenly appear two decades after his death is remarkable. That it turns out to be a version of a previously published Lewis short story which some have accused of being a forgery, makes it a mystery. C. S. Lewis's "Light" manuscript appeared out of nowhere in 1985 after a different version of the story was published in 1977. Could "Light" be the final version of that story, the missing polished text which should have been published all along? And does it disprove or inflame the accusations of forgery? Charlie W. Starr explores the questions and reveals the truth that what Lewis scholars have previously believed about the story's origins is largely inaccurate, and that the insights into Lewis's thinking which "Light" reveals provide a new key to understanding some of Lewis's most profound ideas. "As literary journalism, both investigative and critical, it is top shelf." James Como, author of Remembering C. S. Lewis "Starr's book explores a vitally important theme in Lewis's work - light." Will Vaus, author of Speaking of Jack: A C. S. Lewis Discussion Guide "Starr has done us all a great service ... I can't recommend this book highly enough." Adam Barkman, author of C. S. Lewis and Philosophy as a Way of Life "Starr shines a new and illuminating light on one of Lewis's most intriguing stories." Michael Ward, author of Planet Narnia: The Seven Heavens in the Imagination of C. S. Lewis Charlie W. Starr is professor of English and Humanities at Kentucky Christian University.
