The Routledge Research Companion to Anglo-Italian Renaissance Literature and Culture Jun 24 2019 The aim of this Companion volume is to provide scholars and advanced graduate students with a comprehensive and authoritative state-of-the-art review of current research work on Anglo-Italian Renaissance studies. Written by a team of international scholars and experts in the field, the chapters are grouped into two large areas of influence and intertextuality, corresponding to the dual way in which early modern England looked upon the Italian world from the English perspective – Part 1: "Italian literature and culture" and Part 2: "Appropriations and ideologies". In the first part, prominent Italian authors, artists, and thinkers are examined as a direct source of inspiration, imitation, and divergence. The variegated English response to the cultural, ideological, and political implications of pervasive Italian intertextuality, in interrelated aspects of artistic and generic production, is dealt with in the second part. Constructed on the basis of a largely interdisciplinary approach, the volume offers an in-depth and wide-ranging treatment of the multifaceted ways in which Italy's material world and its iconologies are represented, appropriated, and exploited in the literary and cultural domain of early modern England. For this reason, contributors were asked to write essays that not only reflect current thinking but also point to directions for future research and scholarship, while a purposefully conceived bibliography of primary and secondary sources and a detailed index round off the volume.

Crusades Oct 28 2019 Crusades covers seven hundred years from the First Crusade (1095-1102) to the fall of Malta (1798) and draws together scholars working on theatres of war, their home fronts and settlements from the Baltic to Africa and from Spain to the Near East and on theology, law, literature, art, numismatics and economic, social, political and military history. Routledge publishes this journal for The Society for the Study of the Crusades and the Latin East. Particular attention is given to the publication of historical sources in all relevant languages - narrative, homiletic and documentary - in trustworthy editions, but studies and interpretative essays are welcomed too. Issue 2 of the Crusades includes Jonathan Riley-Smith's 'survey of Islam and the Crusades in history and imagination, over the course of the twentieth century culminating in the aftermath of the 9/11 attacks.

The Debate on the Trial of the Templars (1307–1314) Aug 07 2020 Seven hundred years after the dissolution of the order, the trial of the Templars still arouses enormous controversy and speculation. In October 1307, all the brothers of the military-religious order of the Temple in France were arrested on the instructions of King Philip IV and charged with heresy and other crimes. In 1312, Pope Clement V, at the Council of Vienne, dissolved the order. Since the 1970s, there has been increasing scholarly interest in the trial, and a series of books and articles have widened scholars' understanding of causes of this notorious affair, its course and its aftermath. However, many gaps in knowledge and understanding remain. What were the Templars doing in the months and years before the trial? Why did the king of France attack the Order? What evidence is there for the Templars' guilt? What became of the Templars and their property after the end of the Order? This book collects together the research of both junior and senior scholars from around the world in order to establish the current state of scholarship and identify areas for new research. Individual chapters examine various aspects of the background to the trial, the financial, political and religious context of the trial in France, the value of the Templars' testimonies, and consider the trial across the whole of Europe, from Poland and Cyprus to Ireland and Portugal. Rather than trying to close the discussion on the trial of the Templars, this book opens a new chapter in the ongoing scholarly debate.

The Early Humiliati Sep 07 2020 This book is the first major study in English of a group of late twelfth-century religious enthusiasts, the early Humiliati, who were condemned by the Church as heretics in 1184. However, in a remarkable transition, they were reconciled seventeen years later and went on to establish a highly successful religious order in north Italy. The Humiliati have been accorded little attention in previous studies both because of their local nature and because of the suppression of the

Order in 1571, after one of their number made a disastrous attempt to murder Charles Borromeo. Using a combination of a wide range of sources, the nature of the early movement and its processes of institutional development are reconstructed. The book also includes a Bullarium Humiliatorum, a calendar of papal and episcopal letters and privileges, which will be of great use to scholars in the field.

Alt oder neu? Feb 22 2022 Der Band versammelt Beiträge aus der evangelischen und katholischen Theologie, Judaistik, Islamwissenschaft und Arabistik, Religionswissenschaft, Philosophie und klassischen Philologie. Sie alle widmen sich der Frage, ob es in Religion und Theologie Entwicklung geben kann – eine Debatte, die sich von der Antike über das Mittelalter bis in die Neuzeit verfolgen lässt: Kann etwa im Verhältnis von griechisch-römischen Kulturen, Judentum, Christentum und Islam von ›alten‹ und ›neuen‹ Religionen gesprochen werden? Wie werden in ihnen jeweils die Begriffe ›alt‹ und ›neu‹, ›Fortschritt‹ und ›Modernität‹ geltend gemacht? Diese lang tradierten Fragen gewinnen in der Gegenwart eine dringliche Aktualität, etwa bei der Suche nach Antworten auf die viel diskutierte ›Glaubenskrise‹ der christlichen Kirchen oder bei der Forderung nach einem ›modernem‹ Islam. The volume brings together contributions that presents perspectives on the topic from different academic disciplines (protestant and catholic theology, Jewish studies, Islamic and Arabic studies, religious studies, philosophy, classical philology). The debate about whether there can be development in religion and theology can be traced from antiquity through the middle ages to modern times: Can we speak of "old" and "new" religions in relation to Greco-Roman cults, Judaism, Christianity and Islam? How are the terms "old"/"new", "progress" and "modernity" asserted within one and the same religion and its theology? These old questions are becoming urgently topical in the present – often completely unreflected – for example when looking for answers to the much-discussed crisis of faith in the Christian churches or when calling for a "modern" Islam.

Miracles and Wonders Oct 21 2021 Beginning in the late twelfth century, scholastic theologians such as William of Auvergne, Thomas Aquinas and Engelbert of Admont attempted to provide a rational foundation to the Christian belief in miracles, bolstered by the Aristotelian theory of natural law. Similarly in this period a tension appeared to exist in the recording of miracles, between the desire to exalt the Faith and the need to guarantee believability in the face of opposition from heretics, Jews and other sceptics. As miracles became an increasingly standard part of evidence leading to canonization, the canon lawyers, notaries and theologians charged with determining the authenticity of miracles were eventually issued with a list of questions to which witnesses to the event were asked to respond, a virtual template against which any miracle could be measured. Michael Goodich explores this changing perception of the miracle in medieval Western society. He employs a wealth of primary sources, including canonization dossiers and contemporary hagiographical Vitae and miracle collections, philosophical/theological treatises, sermons, and canon law and ancillary sources dealing with the procedure of canonization. He compares and contrasts 'popular' and learned understanding of the miraculous and explores the relationship between reason and revelation in the medieval understanding of miracles. The desire to provide a more rational foundation to the Christian belief in miracles is linked to the rise of heresy and other forms of disbelief, and finally the application of the rules of evidence in the examination of miracles in the central Middle Ages is scrutinized. This absorbing book will appeal to scholars working in the fields of medieval history, religious and ecclesiastical history, canon law, and all those with an interest in hagiography.

Del vero diritto della natura, e delle genti e de i mezzi, che conducono alla più facile cognizione di esso. Dissertazione apologetica del signor D. Damiano Romano avvocato napoletano Jul 26 2019

Marie Dec 11 2020 "Marie, mère du Sauveur et de l'humanité" ; " Marie, vierge des aurores et des étoiles, manteau de miséricorde qui couvre les pauvres." "Humble et haute", comme l'écrivait Dante. Quelle autre personnage a traversé tant de mystères, reçu tant d'invocations ? Comment la figure de Marie a-t-elle traversé les textes de l'Occident ? Comment la tradition mariale s'est-elle racontée ? Dans cet ouvrage, le philologue Carlo Ossola propose un parcours pour explorer la tradition mariale. Il évoque la vie de Marie en Palestine, le culte de sa sainte maison à Lorette, et les textes littéraires qui lui ont été consacrés au cours des siècles. Il montre aussi comment, entre la proclamation dogmatique de l'Immaculée Conception (1854) et celle de l'Assomption (1950), les souffrances collectives des deux guerres mondiales, ont accentué

la méditation mariale. Un ouvrage original, comme un voyage à travers l'histoire, la littérature, la théologie.
