K9 Supervisor's Manual Sep 24 2022 Understand, oversee, and develop a police-dog program that excels Learn: - The five fundamental factors for running a successful unit, and why some K9 units fail - How to mitigate liability issues - How to select the right dogs and handlers - How to handle budgets and deal with police-dog vendors - Current training trends and how to develop a positive K9 unit culture K9 units are on the front line for

every dangerous and in progress call, and it's up to the unit manager to ensure officers have the best possible dogs, equipment, and training for them to do their job and help mitigate the related risk. Robert Eden, a retired 28-year police veteran with extensive experience as a K9 handler and trainer, provides police departments with a template for the successful development and supervision of police-service dog operations. It provides a wealth of information for supervisors who have limited or no experience with police dogs, as well as new ideas and expert recommendations for those with an extensive K9 background.

Air Force Enlisted Force Management Jan 24 2020 A fundamental goal of the Air Force personnel system is to ensure that the manpower inventory, by Air Force specialty code and grade, matches requirements. However, there are structural obstacles that impede achieving this goal. To remove one of those obstacles, the authors propose a methodology that would marginally modify grade authorizations within skill levels to make it possible to better achieve manpower targets.

Managing Social Service Staff for Excellence Nov 02 2020 An essential guide for those charged with supervision of nonclinical staffin programs, agencies, and units within social service organizations "As someone who has worked in social service agencies, consulted with hundreds of them, and who teaches social service professionals, Ms. Summers knows the issues faced by agencies firsthand. From this experience she has compiled a thoughtful and well-organized text that identifies the principles of effective supervision." —Samuel Knapp, EdD Director of Professional Affairs, Pennsylvania Psychological Association From the Foreword The care of patients and clients of social service agencies is increasingly being performed by paraprofessionals or professionals with little experience. While there are many books written about giving quality clinical supervision, there is very little on supervising the least experienced frontline nonclinical and clinical staff to teach and promote positive and effective interaction with clients, and provide staff support and training that elevates quality care, improves job satisfaction, and minimizes staff turnover. Based on author

Nancy Summers' many years of working with troubled social service agencies, *Managing Social Service Staff for Excellence: Five Keys to Exceptional Supervision* fills this need and offers numerous ideas for securing the best care for those served by social service agencies. Common problems faced by agencies are examined with regard to employee behavior and wellness, including staff teamwork, how to build healthy staff/client relationships, and the identification and prevention of routine disrespect of clients and their needs. Diagnostic techniques are presented for identifying these problems, as well as remedies and prevention programs that can be put in place without great expense. Filled with interviews and numerous case examples, *Managing Social Service Staff for Excellence* offers a step-by-step process for: creating good preventive measures to counteract negative practices that can occur; developing robust commitment and enthusiasm; and getting back on the right track after unfortunate incidents have taken place.

Rethinking Your Unit Council Structure Jan 04 2021 Rapid change is constant in the healthcare industry, leaving hospitals—and the units within—to react and adapt. Unfortunately, the typical shared (professional) governance structure fails to address the challenges of modern healthcare systems, both in efficiency and ability to maintain long-term change. As a result, change in healthcare is often met with roadblocks and resistance. *Rethinking Your Unit Council Structure* applies the innovative FLIGHT Model of risk and change to:

- Determine your unit's immediate needs
- Empower team members to identify problems and initiate solutions
- Transcend elements of traditional unit council structures that hinder progress
- Improve staff engagement and satisfaction

This book provides a solutions-based approach to determining and addressing the unique needs of your unit, hospital, or system so that your change initiatives can succeed.

Manufacturing Management for Beginners Oct 25 2022 I can tell you from experience, after I was selected as a supervisor in a department where I was previously a machinist, I had the deer in the headlight look for the first few weeks. I knew almost everyone. Some of the people liked me, some not so much. I decided I was going to make something from this new opportunity. I worked hard, extra hours, and during most weekends. There were operators earning more than I was but I knew if I did the job and ran a solid, productive department, the raises would come, and they did. There were many things to learn, especially what kind of supervisor did I want to be. In this book, you will learn some of the things that worked for me. They may or may not work for you. I rose in the ranks from line supervisor to unit supervisor, unit manager, manufacturing manager, production manager to finally plant manager. In this book I touch on some of the following: Welcome to Management Learning to Manage Professional Courage Performance Reviews Management Styles Department Improvements Lean Tools Quality

Clinical Supervision for Nurses Jul 18 2019 Clinical supervision provides a framework within which nurses can reflect on their practice, enabling them to face professional challenges with renewed energy and a clearer perspective. Clinical Supervision for Nurses is an accessible, practical guide to clinical supervision itself and implementing the supervision process in nursing practice. Clinical Supervision for Nurses explores the role of clinical supervision, its contribution to practice development and implementation in practice. It discusses the range of approaches to clinical supervision and models of supervision, organisational readiness and other factors influencing success, legal and ethical issues, and perspectives of supervisors and the supervisees.

Supervision in the Hospitality Industry Oct 01 2020 Supervision in the Hospitality Industry, Ninth Edition, is a comprehensive primer designed for beginning leaders, new supervisors promoted from an hourly job, and students planning for careers in the hospitality industry. Covering each essential aspect of first-line supervision, this market-leading textbook helps readers develop the practical skills and knowledge necessary for effectively supervising hospitality workers at all levels of an organization, including cooks, servers, bartenders, front desk clerks, porters, housekeepers, and janitorial staff. Topics include planning and organizing, communication, recruitment and team building, employee training, performance effectiveness, conflict management, and more. The text's unique approach to leading human resources — combining fundamental leadership theory and the firsthand expertise of hospital industry professionals — enables readers to master concrete, results-driven leadership methods and overcome the everyday challenges faced in the real world. Principles of good leadership and supervision are presented in clear, easy-to-understand language and are reinforced by numerous examples, case studies, discussion questions, and activities. The ninth edition of Supervision in the Hospitality Industry remains the ideal text for students and practitioners alike, delivering a basic yet comprehensive knowledge of the different elements of the supervisor's job while helping develop the leadership qualities needed to succeed as a hospitality professional.
