Yuly brings charm and humor to her bold, colorful artwork in this gentle story about friendship, *The Jelly Bean Tree*. [The Jelly Bean Hunt](#) Feb 22 2022 Tess is six and she loves jelly beans, and believes that you can do just about anything with them. Count them, sort them by colours, play noughts and crosses with them, make different shapes with them and of course eat them. She loves all the colours, except the black ones. When a huge jar of jelly beans turns up one day, Tess is delighted, but Mum has placed them on top of the fridge out of Tess's reach and Tess has been told that she is not allowed to have any until after dinner. Not happy with this idea, Tess does

just about anything she can to get a hold of them, but each time she gets closer Mum catches her and Tess must abandon her attempts. With Mum now out of the room Tess decides she has to have one more try when she realises that the jelly beans have now gone missing, she is not happy and must now hunt them down. Where did the jelly beans go? Who stole them? What will Mum say? "Mum," calls Tess, "someone stole the jelly beans." ***The Haunted Staircase*** Jul 26 2019 *The Power of Bad* Jun 04 2020 "The most important book at the borderland of psychology and politics that I have ever read."—Martin E. P. Seligman,

3/12

Zellerbach Family Professor of Psychology at that University of Pennsylvania and author of *Learned Optimism* Why are we devastated by a word of criticism even when it's mixed with lavish praise? Because our brains are wired to focus on the bad. This negativity effect explains things great and small: why countries blunder into disastrous wars, why couples divorce, why people flub job interviews, how schools fail students, why football coaches stupidly punt on fourth down. All day long, the power of bad governs people's moods, drives marketing campaigns, and dominates news and politics. Eminent social scientist Roy F.

Baumeister stumbled unexpectedly upon this fundamental aspect of human nature. To find out why financial losses mattered more to people than financial gains, Baumeister looked for situations in which good events made a bigger impact than bad ones. But his team couldn't find any. Their research showed that bad is relentlessly stronger than good, and their paper has become one of the most-cited in the scientific literature. Our brain's negativity bias makes evolutionary sense because it kept our ancestors alert to fatal dangers, but it distorts our perspective in today's media environment. The steady barrage of bad news and

crisismongering makes us feel helpless and leaves us needlessly fearful and angry. We ignore our many blessings, preferring to heed—and vote for—the voices telling us the world is going to hell. But once we recognize our negativity bias, the rational brain can overcome the power of bad when it's harmful and employ that power when it's beneficial. In fact, bad breaks and bad feelings create the most powerful incentives to become smarter and stronger. Properly understood, bad can be put to perfectly good use. As noted science journalist John Tierney and Baumeister show in this wide-ranging book, we can adopt proven strategies to

avoid the pitfalls that doom relationships, careers, businesses, and nations. Instead of despairing at what's wrong in your life and in the world, you can see how much is going right—and how to make it still better.

New Stars for Old May 04 2020

New Stars for Old takes readers on a journey through the history of astronomy from the perspective of pivotal figures as they make their discoveries. Referencing the changing relationships between science, astrology, religion and culture of each period, Marc Read's writing provides readers with the opportunity to discover more about key figures such as Aristotle and

With step by step instructions, tips, and sample problems students will have the confidence to solve these dazzling decimal problems!

This book will allow students to add, subtract, multiply, and divide decimals to hundredths.

The Wisdom of Crowds Jun 28 2022 In this fascinating book, New Yorker business

columnist James Surowiecki explores a deceptively simple idea: Large groups of people are smarter than an elite few, no matter how brilliant—better at solving problems, fostering innovation, coming to wise decisions, even predicting the future. With boundless erudition and in delightfully clear prose, Surowiecki ranges across fields as diverse as popular culture, psychology, ant biology, behavioral economics, artificial intelligence, military history, and politics to show how this simple idea offers important lessons for how we live our lives, select our leaders, run our companies, and think about our world.

King & Kayla and the Case of the Gold Ring Jan 30 2020 King & Kayla are back on the case in this laugh-out-loud mystery from the Theodor Seuss Geisel Honor Award-winning series. King, Kayla, Mason, and Asia are playing in the snow. Later, Asia discovers her gold ring is missing. What happened to it? Analytical Kayla has a plan. Together the friends retrace their steps and thoroughly search the area. Sensitive King remembers the crow he saw outside. Crows like shiny things. Can King and Kayla put the pieces together and find the lost ring? With simple, straightforward language and great verbal and visual humor, the King & Kayla series is

Secret in the Jelly Bean Jar.

The Giant Jellybean Jar Nov 02 2022 Ben loves jelly beans, and every week he goes to Jo-Jo's Jelly Bean Shop hoping to guess the riddle that will win him a whole jar full of them. He always knows the answer to the riddle, but he has never won the prize. It's hard to speak out loud in front of so many people, but with a little help from his sister, Ben finally learns to say what he's thinking.

King & Kayla and the Case of the Unhappy Neighbor Jun 16 2021 King & Kayla are back on the case in this laugh-out-loud mystery from the Theodor Seuss Geisel Honor Award-winning series. Thor is in big trouble. Mr. Gary says he

knocked over his trash cans, dug up his garden, and ate some of his vegetables. King and Kayla have to clear Thor's name and find the actual culprit. Analytical Kayla demonstrates that Thor isn't big enough to knock over heavy trash cans and he doesn't like vegetables. Sensitive King discovers evidence that someone else has been in Mr. Gary's yard—and it's not a dog. Who made Mr. Gary unhappy? With simple, straightforward language and great verbal and visual humor, the King & Kayla series is perfect for newly independent readers. King and Kayla model excellent problem-solving skills, including working as a team, gathering

facts, making lists, and evaluating evidence. *The Case of the Buried Bones (Book 12)* Mar 02 2020 When it's time to dig up the town time capsule, all that is found is a mysterious note...and a skeleton! To everyone's relief, "Herman" turns out to be the long-lost skeleton from the high school science lab. Can Milo and Jazz gather enough clues to find the missing capsule and solve a 75-year-old mystery? The Prairie Homestead

Cookbook Nov 09 2020 Jill Winger, creator of the award-winning blog The Prairie Homestead, introduces her debut The Prairie Homestead Cookbook, including 100+ delicious, wholesome recipes made with fresh ingredients to bring the flavors and spirit of homestead cooking to any kitchen table. With a foreword by bestselling author Joel Salatin The Pioneer Woman Cooks meets 100 Days of Real Food, on the Wyoming prairie. While Jill produces much of her own food on her Wyoming

ranch, you don't have to grow all—or even any—of your own food to cook and eat like a homesteader. Jill teaches people how to make delicious traditional American comfort food recipes with whole ingredients and shows that you don't have to use obscure items to enjoy this lifestyle. And as a busy mother of three, Jill knows how to make recipes easy and delicious for all ages. "Jill takes you on an insightful and delicious journey of becoming a homesteader. This book is packed with so much easy to follow, practical, hands-on information about steps you can take towards integrating homesteading into your life. It is packed full of exciting and

mouth-watering recipes and heartwarming stories of her unique adventure into homesteading. These recipes are ones I know I will be using regularly in my kitchen." - Eve Kilcher These 109 recipes include her family's favorites, with maple-glazed pork chops, butternut Alfredo pasta, and browned butter skillet corn. Jill also shares 17 bonus recipes for homemade sauces, salt rubs, sour cream, and the like—staples that many people are surprised to learn you can make yourself. Beyond these recipes, The Prairie Homestead Cookbook shares the tools and tips Jill has learned from life on the homestead, like how to churn your own butter, feed a

family on a budget, and experience all the fulfilling satisfaction of a DIY lifestyle.

The Smartest Kid in the

Universe Feb 10 2021 "Chris Grabenstein just might be the smartest writer for kids in the universe." --James Patterson Meet the Smartest Kid in the Universe in this fun-packed series from the New York Times Bestselling Author of Escape from Mr. Lemoncello's Library and coauthor of Max Einstein! Twelve-year-old Jake's middle school is about to be shut down. Jake and his friends know their school's worth saving-if they could only figure out how! When Jake spies a bowl of jellybeans at the hotel where his mom works, he eats them. But uh-oh--those weren't just jellybeans, one of the scientists at his mom's conference is in the process of

developing the first ingestible information pills. And THAT'S what Jake ate. Before long, Jake is the smartest kid in the universe. But the pills haven't been tested yet. And when word gets out about this new genius, people want him. The government. The mega corporations. Not all of them are nice! Can Jake navigate all the ins and outs of his newfound geniusdom (not to mention the ins and outs of middle school!) AND use his smarts to figure out how to save his school? (Hint-it will take someone smart enough to decipher an almost forgotten pirate legend!) It turns out, sometimes even the smartest kid has a lot to learn!
